

WHAT IS DYAD LABS?

Why is our lab called Dyad? Because we are true believers in partnerships – significant partnerships. Since our beginning in 2008, we have learned that we do our best work when we are working hand-in-hand with our customers. When our goals and objectives are aligned. It is in these relationships where we deliver faster turn-around times. Innovative testing methods. Specialized solutions that meet our partners' needs.

dy·ad - 'dīad/ A pair. Duo. Something that consists of two elements or parts. Specifically, two individuals or parties maintaining a significant relationship.

Today, Dyad is an independent ISO/IEC 17025:2005 accredited contract laboratory in Salt Lake City, Utah that provides specialized chemistry and microbiology testing services to the Nutraceutical, Food and Beverage industries.

We have eleven separate laboratories to meet even the most technical needs. Compliance, label verification, raw ingredient testing, identity, purity, potency. We also specialize in method development, method validation and those “hard to solve” testing issues.

LABS INCLUDE:

- Inorganic
- General Chemistry
- Sample Receipt
- Stability
- Chromatography: UPLC
- Chromatography: LC/MS/MS
- Chromatography: GC/MS/MS and GC/FID
- Microbiology: Sample Prep
- Microbiology: Probiotic Testing
- Microbiology: Media Prep and Autoclave
- Microbiology: Incubators and Reading

Additionally, Dyad Labs offers industry leading turn-around times with lab managers available for consultation and assistance at every stage of the testing process. Ask us today about our parallel testing program so you can see the Dyad difference in real time with your current testing provider. We believe in significant partnerships. Give us a try. Together, we are Dyad.
